Determining the Channel of the Receiver You're Using (PC or Mac)

1.  With a receiver plugged into your computer, start the TurningPoint software

2.  On the TurningPoint menu (not the PowerPoint menu), choose Tools → Settings

3.  Click "Response Device" on the left side of the screen

4.  On the right side of the screen, under ResponseCard Channels, the channel of your receiver is the first channel on the list
