Login with your PennKey@upenn.edu(not @sas.upenn.edu)

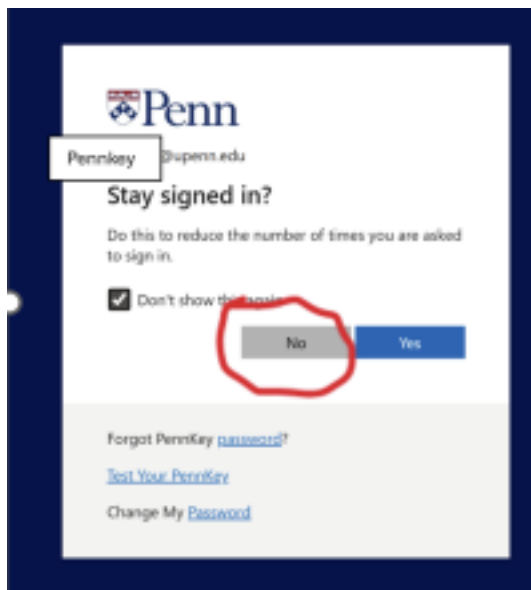

Microsoft's webpage will redirect to Penn's web login webpage once your [pennkey@upenn.edu](#) address is entered.

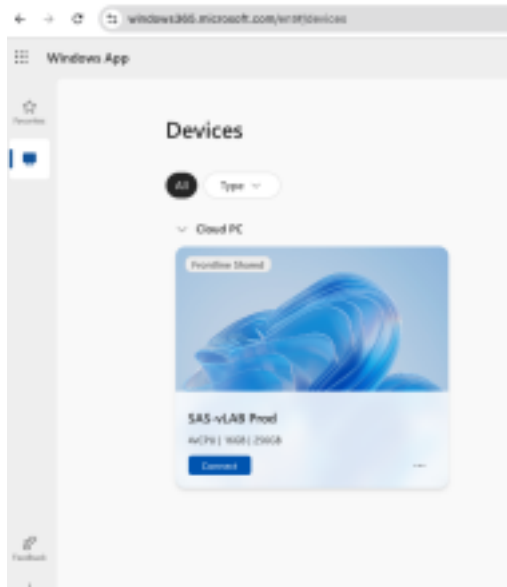

The image shows the Penn University of Pennsylvania login page. At the top is the Penn logo with the text "University of Pennsylvania". Below the logo is the heading "Log in with your PennKey". There are two input fields: "Username" with the value "pennkey@upenn.edu" and "Password". Below the fields is a blue "Log in" button. At the bottom, there are links for "Forgot username?", "Forgot password?", "Change my password", "Test my PennKey", and "Privacy policy".

An Ode to two-factor authentication! --- Check your phone for the two-factor prompt and click NO to staying signed in.

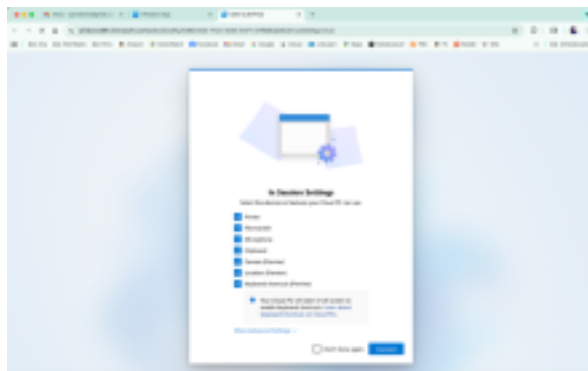

The image shows a "Stay signed in?" dialog box from Penn. It has the Penn logo at the top. Below the logo is the text "Pennkey @upenn.edu". The heading is "Stay signed in?". Below the heading is the text "Do this to reduce the number of times you are asked to sign in." There is a checkbox labeled "Don't show this again" which is checked. Below the checkbox are two buttons: "No" and "Yes". The "No" button is circled in red. At the bottom, there are links for "Forgot PennKey password?", "Test Your PennKey", and "Change My Password".

Choose the "SAS-vLab-Prod" desktop pool.

Accept the defaults for “In Session Settings”

Authenticate with your KITE account. This uses the same username and password as your PennKey. Note the “kite” in front of the “upenn.edu.” That’s normal.

The Windows 11 desktop in the new SAS vLab - Use the desktop shortcut to log off from Windows and end your vLab session. Do not save any work to the vLab. User profiles are cleaned upon logoff. Save any work to Box, Google Drive, or other online storage.
